

£80

# END OF SEASON "MOT"

This package consists of an assessment and a hands on treatment (usually £60 & £50 respectively) plus a report for your vet.

## #1 - ASSESSMENT (allow 60-90 minutes)

Postural analysis

Gait analysis

Passive & active range of motion assessment

Weight-bearing & proprioception tests

## #2 - HANDS ON TREATMENT (allow 60 minutes)

Palpation to assess for areas of tension, heat or cold followed by a combination of massage, myofascial release, passive stretches and Photizo red light therapy.

Assessments and treatments take place in my dedicated treatment room just off the A21 on the Kent/Sussex border (Flimwell). Vet consent is required, this is not usually an issue if the vet has seen the dog relatively recently.

**If you would like to book, please contact me via email [zencaninetherapy@gmail.com](mailto:zencaninetherapy@gmail.com) or Whatsapp 07900 697383. If you would like to find out a bit more first you can request a no obligation chat via my website – [www.zencaninetherapy.com](http://www.zencaninetherapy.com)**
